Suitable for qualified yoga teachers, and those who work with children, this modular course gives a comprehensive foundation for teaching yoga to children aged 3 - 13 in a school or private setting. More importantly, it will teach you how to engage, entertain and give confidence to children and harness their natural abilities to learn.

Our style is to teach theory in an interactive and detailed manner while ensuring it is safely applied.

Participants will leave training with the tools to help children connect to themselves & their community, access the calming power of their breath, develop focus & concentration, feel strong and confident through physical movement, and learn how to nurture themselves through relaxation.
